

Discipleship Enablers

**Growing as a follower of Jesus and
learning to help others to do the same**

Discipleship Enablers is a pilot learning community for those who support others to grow in faith (e.g. small group leader) and want to see discipleship develop in their local church.

Explore simple principles and questions which help us go deeper with God throughout the whole of our lives

Experience a supportive atmosphere of mutual accountability

Reflect together on how to apply approaches in your own context, to enable others to grow in faith too

Meet for 12 monthly sessions (90 mins via zoom) plus two retreat days led by Ian Jones, St Peters Saltley Trust

Is this for you?

- Do you have a clear calling / hunger to see others develop in their journey with Jesus?
- Do you believe discipleship is not just for experts but for every Christian?
- Are you willing to offer yourself as an imperfect model and take responsibility for making the meetings happen?
- Do you agree that intentional disciple making is a vital part of church activity?
- Are you saying 'we want to do more of this/do this better, but don't know how'?
- Are you happy that this is NOT a path to a formal qualification, academic knowledge or a discernment process?

Take the next step...

Email Helen Emery, Whole Life Discipleship Officer helen.emery@lichfield.anglican.org for more information.

There will be a taster session you can attend before you commit.
